

Amadeus Primary Academies Trust Assessment Policy

First Date Policy Agreed:	Review Date for Policy:	
Signed CEO:	Joint Standards Committee March 2024	
Signed Chair Of Trustees:		

At Amadeus Primary Academies Trust our core values are: Ambition, Persistence, Adaptability and Thoughtfulness and all of our policies are underpinned by this. In Moderation this means:

Ambition

We will use of different forms of assessment as tools to support all of our children to achieve their potential and to support our team across the Trust to effectively assess and respond to pupils next steps.

Persistence

Our Assessment system has clear parameters and is underpinned by clear levels of accountability, ensuring that we are persistant in driving learning forward and effectively supporting pupils.

Adaptability

We believe that effective policy and systems are made fully relevant by supporting our wider team in adapting classroom practice in response to assessment.

Thoughtfulness

As we reflect on the progress of our pupils and the effectiveness of our pedagogy, we develop and refine our approach and review our policies to ensure we improve our offer to all pupils and improve their life chances.

Assessment at Amadeus Primary Academies Trust includes ongoing evaluation of learning by teachers on a day to day basis which allows them to tailor their teaching accordingly – commonly referred to as 'Responsive Teaching'.

The rationale to reviewing and amending our assessment and data management system reflects the advice published in "Eliminating unnecessary workload associated with data management" (March 2016)

- 1. be streamlined: eliminate duplication 'collect once, use many times'
- 2. be ruthless: only collect what is needed to support outcomes for children. The amount of data collected should be proportionate to its usefulness. Always ask why the data is needed.
- 3. be prepared to stop activity: do not assume that collection or analysis must continue just because it always has
- 4. be aware of workload issues: consider not just how long it will take, but whether that time could be better spent on other tasks

The Language of Assessment used at Amadeus Primary Academies Trust

EYFS	Early Years/Found	lation Stage				
	ELG	Early Learning Goal				
	GLD	Good Level of Development. Pupils will be defined as having a GLD if they achie at least the expected level in the three prime areas of learning and the specific areas of literacy and mathematics.				
Statuto	ory assessment					
	GDS	Working at a greater depth of expected standard				
	EXS	Expected standard				
	WTS	Working towards expected standard				
	BLW	Below expected standard				
	PKS	Pre-key stage				
In-scho	ol language of assess	ment derived from <i>PiXL</i> approach				
	PiXL	'Partners in Excellence' – a non-profit organisation which is a collaboration of schools focussed on improving outcomes				
	A1	Based on current rate of progress, will secure Above Expected Standard				
	A2	Based on current rate of progress, will securely achieve Expected Standard. With the right forensic support, has the potential to achieve Above Expected Standard				
	E1	Based on current rate of progress, will secure Expected Standard				
	E2	Based on current rate of progress is likely to achieve Expected Standard but may require some additional support				
	B1	Based on current rate of progress, will not achieve Expected Standard but with the right forensic support, has the potential to do so.				
	B2	Requires specialist support				
	Key Marginals	The specific B1 pupils targeted to attain the expected standard. Above Key Marginals are pupils targeted to reach a Greater Depth.				
	Combined	Describes pupil working at/above expected standard in Reading, Writing and Maths				
	WIG	'Wildly Important Goal'				
	QLA	Question level analysis				
	ASP	Analyse School Performance				
	PITA	Point in time assessments Learning is assessed against what has been taught to date and learner's achievements are compared against the expected levels of understanding and competencies relative to that 'point in time'.				
	FFT	Fischer Family Trust				
	Symphony	Assessment system used for Foundation subjects				

The correlation of the different language terms are:

EYFS Statutory assessment		PiXL language (Core subjects)	Wider Curriculum Language (Foundation subjects)	
ELG3	GDS	A1	Exceeding	
		A2	Expected	
ELG2	EXS	E1		
		E2		
ELC1	WTS	B1	Emerging	
ELG1	BEL	-B2	Below	
	PKS	- BZ	below	

^{&#}x27;Development Matters in the EYFS' is used to track and assess pupils across our Nursery and Reception years. The 'EYFS profile' is used to make accurate judgements about each pupil's attainment at the end of EYFS.

In Y1-6 *PiXL* tests and past SATs papers in Reading, Maths and GPS take place periodically and gives teachers indicators of how well specific knowledge and skills have been retained and informs teachers of patterns and trends to tailor future curriculum planning and provision.

The tracking of foundation subjects is bespoke and moderated across other Trust schools. Bespoke materials are also used for Phonics and Science.

Statutory assessments are completed at the end of EYFS, KS1 and KS2. Phonics assessments are initially completed at the end of Year 1 and statutory times-tables tests introduced in Year 4.

Attainment

EYFS:

The attainment of pupils in EYFS is assessed and tracked against the age-related criteria within "Development Matters". Observations and evidence are continually gathered to make recorded judgements at the end of the Autumn, Spring and Summer term.

Agreed age-related expectations for the EYFS are:

	Baseline	Autumn	Spring	Summer
Nurcory	Secure	Beginning	Within	Secure
Nursery	22-36mths	30-50 mths	30-50 mths	30-50 mths
Decention	Secure	Beginning	Within	Secure
Reception	30-50mths	40-60 mths	40-60mths	40-60mths

During the final term of EYFS a summative assessment is made for pupils using the Early Learning Goal statement for each strand. Pupils achieving at least the expected level in the prime areas of learning and in the specific areas of literacy and mathematics are reported as gaining a 'Good Level of Development' (GLD)

Y1-6:

Teacher 'point in time' judgements of a pupil's attainment are made at, at least three points throughout the school year, following the PIXL timetable.

The schedule of diagnostic tests in Reading, Maths and GPS are used by teachers and leaders to identify pupils who may be at risk of falling behind (both for Expected and Greater Depth) in phase and so may require more focussed intervention. The information from both tests and teacher assessment is used to inform pupil progress discussion

and to quality assure accurate judgements are made. Nationally comparable benchmarking including *FFT* and *PiXL* is used to check that individual pupils, cohorts and groups are on track to meet end of key stage predictions.

Teachers will refer to:

- Observations
- Discussions with the pupil
- Performance and engagement in lessons
- Pupil's books
- Marking and feedback
- Curriculum coverage tracking
- Impact of 'Same Day Intervention'
- Impact of targeted catchup interventions
- Reading records
- Writing Indicators (See Trust Moderation Policy)
- QLAs
- PiXL test outcomes and summary reports
- Pupil Tracking e.g. phonics, spelling, reading speed.

Progress

At Amadeus Primary Academies Trust the monitoring of progress is represented using progress matrices, plotting the pupil's current attainment from their starting point (e.g. EYFS or KS1 outcomes).

'Sustained progress' follows a linear flightpath model. This is where pupils at least maintain their flightpath, with targeted intervention for those working below to meet the standards of their peers.

The progress of pupils working below the year group's curriculum will be monitored and evidenced in personal curriculum plans and/or Individual Education plans.

The progress of pupils working at a Greater Depth will also be monitored and evidenced on personal curriculum plans when accessing the curriculum of a higher year group.

Reliability and Validity

The reliability of any assessment is a measure of consistency. It is understood that test marks can fluctuate on any given day, this is why PiXL test outcomes and SATs paper practises are one of the many tools which teachers use to formulate their judgements, changes to PIXL Grades however should only be made following Pupil Progress Meetings and only where evidence can be shown to validify differing judgements.

PiXL outcomes are used primarily to assess the cohort's attainment. Making comparisons with the PiXL cohort (for example 22890 pupils in the most recent Y6 assessments) makes the data more reliable, however this also supports us in tracking pupil flight paths between phases.

Discussions are also important about the validity of any assessment. Is it actually assessing the knowledge or skill it is intended to?

Predictions/WIG

WIG

'Wildly Important Goal'

This figure is our reasonable but ambitious goal. It is set for each year group within the first term and represents the sum attainment of each pupil's performance on their best day. The predictions we make are our opinions of the cohort's outcomes based upon evidence of assessment and a range of information gathering. These however are accountability checked both at Trust and school level to ensure agreed clarity.

Reliability of predictions

Each term predictions are reviewed by class teachers about a pupil's end of year outcome. These must be validified by the Phase or Year Group Leader before the end of each term and them being communicated to parents / carers.

Senior leaders in consultation with Middle Leaders then must develop predictions of cohort outcomes and end of key stage results based on this evidence, again quality assuring the process before this is shared at Trust Level with this information being prepared for discussions with Trust Leadership, School Leadership and communication to Trustees via the Joint Standards Committee.

The PIXL Timetable must be followed at all trust schools with a clear agreement in place of the system of quality assurance. For each dataset there must be an agreed level of accountability for:

Assessment	Grade	Uploading	Checking	Monitoring /	Meeting with	Preparing
Scenario and	Agreement	Data before	Data is	Quality	CEO / Head of	Data to
Marking		deadline	uploaded and	Assuring	SI re data /	present to

			working?		cycle?	

We can further ensure reliability by:

- Consistently using a shared language of assessment across APAT.
- Quality Assurance model including lesson observations, drop-ins and book walks, to support Phase, Year
 Group and Senior Leadership discussions and Pupil Progress Meetings.
- Pupil Progress meetings should be held termly with all teachers and recorded as per Trust agreement.
- Shared formatted data points across the Trust must be met with systems followed to ensure all data is correct and available for Trust / National comparison.
- Internal moderation within and across year groups (See Moderation Policy)
- Moderation across the Trust (See Moderation Policy)
- Continuing to develop our LEA Moderator Group providing opportunities for staff from all Trust Schools to develop in this area, ensuring that the Trust Team update the Moderation policy yearly inline with changes to Y2 / Y6 national approaches.
- The CEO and Director of Education will support and challenge the six primaries within Amadeus Primary Academies Trust.
- All Trust schools will ensure attendance of relevant parties at PIXL events and communicate regularly with their PiXL Associate to develop their practice further.
